**Objective**

Statutory objective of the organisation. What does the organisation seek to achieve?

Promoting interests relating to digital rights and freedom in the broad sense, both within and outside Europe; making legal services available and providing subsidies for the protection of digital rights and freedoms; coordinating, structuring and improving cooperation with regard to the various initiatives in the field of digital rights and freedoms; offering training programmes and courses to develop and improve knowledge and skills that may be useful for the above; supporting legal entities that pursue the same or similar objectives as those of the foundation, by means of payments or otherwise, as well as setting up such legal entities themselves or acquiring a participation in such legal entities to work for the benefit of - or to support or carry out - projects of general social interest and, moreover, of a non-commercial and social nature

**Outline of the policy plan**

Please answer the questions below or fill in the URL to the policy plan after the last question about the policy plan.

This online policy plan should at least provide answers to the questions about the policy plan asked here

What are the institution's activities? When are which activities to be carried out? And how do the activities contribute to achieving the organisation's objective?

1. Coordination and activities that strengthen the field of digital rights activists, including by offering trainings, workshops and developing educational materials. This supports the further development of partners' skills, helps them to coordinate better and therefore enables them to better defend digital rights. These activities are carried out throughout the year.

2. Legal aid support, both financial (funding litigation costs) and practical (connecting parties with potential partners and helping them find pro bono support). These activities enable partners to strengthen their litigation work and increase the likelihood of it having a positive impact on digital rights in Europe. Potential recipients of financial support are invited at set times each year (2-3 times) through an "open call" to submit a funding application.

How does the organisation generate income or revenue?

Donations from private foundations, such as: Adessium, Luminare, Open Society Foundation, Nicholas Puech Foundation, Ford Foundation, Sigrid Rausing Trust, Bosch Foundation, Limelight Foundation, Mercator Stiftung, ISOC, Mozilla.

A grant from the European Commission.

How and for what purposes are the revenues spent?  
 If your organisation holds capital, please fill in here where and how this capital is held (e.g. savings account, investments, etc.)

For the activities just described, plus regular expenses for staff, office, and other operational expenses.....

The money is put in a savings account for safe keeping:

**Remuneration policy**  
 Remuneration policy for the statutory board, for the members of the policy-making body and for staff (e.g. collective labour agreement or salary scheme).

Board members may receive token compensation for their volunteer activities on the DFF board. The remuneration may not exceed EUR 1,800 per year.....

DFF has a collectively agreed salary structure where all compensation is transparent within the team. The absolute factor between lowest and highest paid does not exceed 2x. DFF also pays a substantial private pension subsidy, communication subsidy, home office subsidy and wellness bonus each year.....

**Activity Report**  
 List the activities that have been carried out. Alternatively, under the next question, enter the URL to the activity report, or to the financial statements if they clearly describe the activities of the financial year in question.
